## IMPLEMENTATION OF “E-SAYLOV” INFORMATION SYSTEM

On June 30, 2024, for the purpose of testing the E-saylov information system in the elections of local Kengashes deputies to vacant seats, the corresponding interaction between the participants in the electoral process was fully carried out through the “E-saylov” information system.

By Resolution No. 1352 of the Central Election Commission dated July 19, 2024, the regulations of the E-saylov information system were approved.

## TRAINING SESSIONS WERE ORGANIZED FOR USERS OF THE “E-SAYLOV” INFORMATION SYSTEM

Five-day training workshop on the procedures for working with the E-saylov information system was organized for the national trainers with the participation of 30 specialists of the Ministry of Digital Technologies.

At the Academy of Public Administration organized training and practical classes on working with the “E-Saylov” information system for deputy chairmen and secretaries of the Regional Election Commission, specialists of the Ministry of Digital Technologies, employees of the secretariats of regional Kengashes of People’s Deputies and responsible employees of regional khokimiyats (a total of 86 participants).

## “E-SAYLOV” INFORMATION SYSTEM IS IN USE

1

An interface has been created which is user-friendly and easy-to-understand for each user.

2

Through the “E-Saylov” information system, almost 60 types of interactions between election commissions and political parties, candidates, observers and mass media were conducted entirely electronically.

In the system, a large database of about 400,000 participants in the electoral process, including members of election commissions, candidates for deputies, and observers was formed.

A total of 32,000 participants of the election process used the information system professionally. Communication with users was established through 40 types of SMS notifications.

About 30,000 candidates for deputy registered by election commissions were notified by sending SMS messages to their mobile phones that they were registered as candidates for deputy in the elections of the relevant representative body and that they could register their authorized representatives using the “E-saylov” system, as well as about the commencement and duration of the election campaign. In addition, during the election campaign, about 10 types of other SMS messages related to the election process were sent to candidates for deputy.

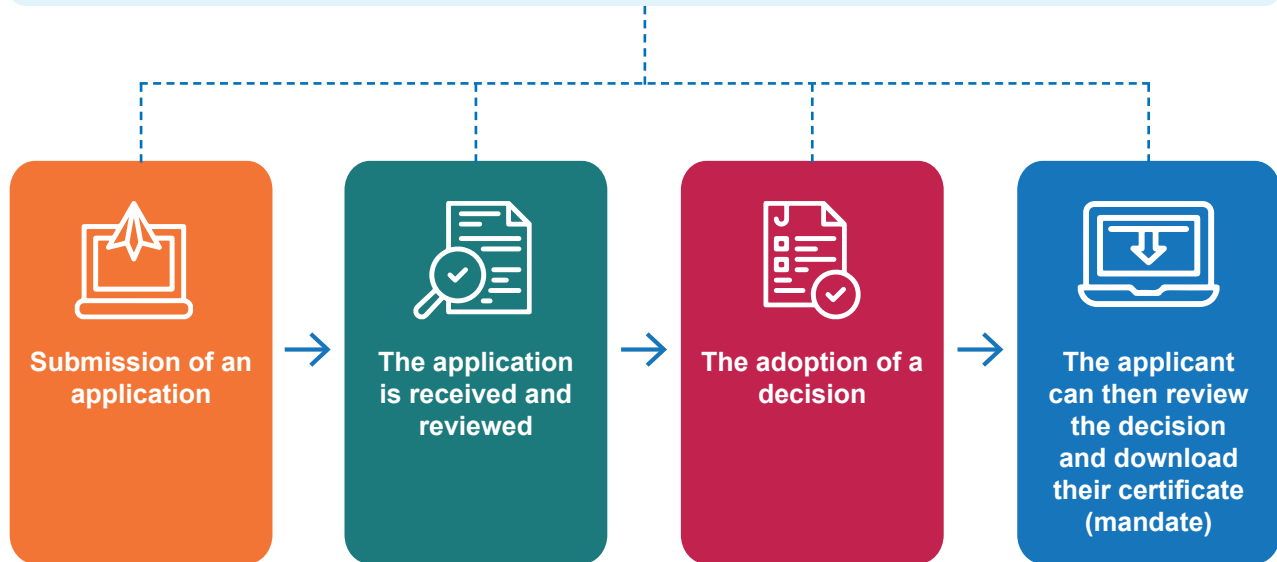

3

The system serves to save costs and users' time, to reduce the volume of work.

## ALGORITHM OF ACTIONS IN THE “E-VOTE” INFORMATION SYSTEM

# MAIN PAGE OF “E-SAYLOV” INFORMATION SYSTEM

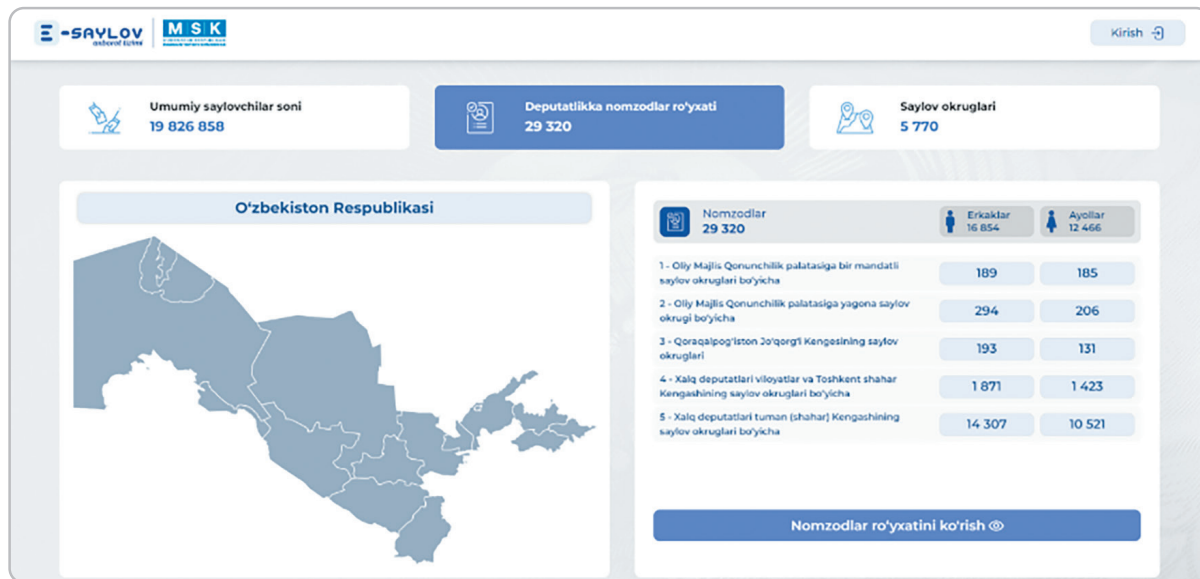

## General voter number section:

- Interactive map
- Number of voters by gender
- Number of voters by region

### List of candidates section:

- Interactive map;
- Number of candidates by election type;
- Number of voters by gender;
- List of candidates by selected election type;
- Candidate search module.

When entering the system to view the candidates for deputy in the “E-Saylov” information system, you will be redirected to the page called “List of candidates for deputy”.

It will take you to the “View list of candidates” page. Then the user is presented with a choice to view candidates by election type.

When clicking on the link “Elections to the Legislative Chamber of the Oliy Majlis”, you should specify the query - “By constituency” or “By party list”. When you click on any of these links, a list of parties that nominated candidates is displayed. When the user selects one of the presented parties, the following data is displayed: full name, dates and places of birth of candidates nominated by this party, as well as the name of the party that nominated them.

The system also provides the ability to view candidates’ information nominated for local Kengashes, and in the list provided by type of election, it is enough to select the required type of election. In addition, the user can view the biography of a specific candidate for deputy through the system. To do this, click on the link with the name and surname of the candidate.

## PROCEDURE FOR SENDING AN APPEALS/APPLICATIONS VIA THE INFORMATION SYSTEM “E-SAYLOV”

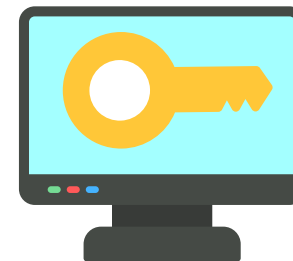

Appeals from system users are sent to the relevant election commissions electronically via the E-saylov information system.

System users must have an EDS key to send an appeal via the E-saylov information system.

### FOR INFORMATION:

*all appeals, except for appeals from candidates for deputies of the Legislative Chamber of the Oliy Majlis, the Jokargi Kenes of the Republic of Karakalpakstan, regional, district, city Kengashes of People’s Deputies and their authorized representatives, are confirmed by the EDS of the system user.*

The head of the legal entity using the system logs into the E-saylov information system via the EDS. Selects the appropriate type of appeal, forms it and confirms it with his EDS. The appeal is automatically sent to the relevant election commission.

#### **FOR INFORMATION:**

*since the system is integrated with the database of the State Agency for Personalization under the Ministry of Justice of the Republic of Uzbekistan, when a citizen of Uzbekistan enters his/her personal identification number or passport data (number and series) in the process of forming an appeal, the system automatically fills in the corresponding columns of the appeal with the personal data of this person: last name, first name, patronymic, date of birth, gender, nationality, residential address, specialty, place of work.*

Users of the system log in to the personal account of the E-saylov information system via the Unified Identification System (OneID) using an EDS (except for candidates for deputy and their authorized representatives).

Login to the personal account of candidates for deputy and their authorized representatives is carried out by the candidate receiving an SMS message containing a secret code on the mobile phone number registered in the E-saylov information system.
